

ECS Health and Safety Assessment - Exemptions

Important

As of 01 July 2017, the IOSH Working Safely Certificate gained via the online e-assessment is no longer accepted as an ECS Health & Safety Assessment exemption.

The ECS Health and Safety assessment has been designed with the needs of occupational construction site safety in mind but are also designed to provide a basic awareness of Health and Safety in the work environment.

There are a number of exemptions have been approved as meeting the occupational construction site safety requirements of the ECS H&S assessment.

Individuals who hold any of the following certificates (issued within 3 years of an application being received by the JIB) are exempted from taking an ECS Health & Safety Assessment:

Assessments and Qualifications which allow a three year exemption:

- Level 3 NVQ Diploma in Installing Electrotechnical Systems and Equipment (Buildings, Structures & Environment) (QCF)
- Level 3 SVQ Diploma in Installing Electrotechnical Systems and Equipment (Buildings, Structures & Environment) (QCF)
- Level 3 NVQ in Electrotechnical Services (Electrical Installation – Building and Structures)
- Level 3 SVQ in Electrotechnical Services (Electrical Installation – Building and Structures)
- SQA/SJIB SVQ Level 3 in Electrical Installation
- Level 3 Electrotechnical qualification (installation) or (maintenance) – Trailblazer (England)
- ECITB Health and Safety Passport
- Construction Skills Register (CSR)
- CCNSG Safety Passport - National Course
- CCNSG Safety Passport - Supervising / Leading a team Safety Course
