

ECA Associate Schemes for Clients

This value-adding opportunity is open to: Clients, Specifiers, Consultant Engineers & Designers

ECA offers **two Associate categories** for clients, specifiers and consultants who engage with electrotechnical & engineering services. These provide a support programme to suit your business and operational needs and give you greater confidence when specifying and taking on contractors. Ensuring that you have appointed the right contractors, such as an **ECA member**, can help you ensure whole-life asset, project and budgetary success. The two Associate categories are shown below:

Client Associate
(Free programme for Clients & Specifiers)

• **Consultant & Specifier**
• (Subscription-based programme with comprehensive support & access to ECA resources)
