

Supporting safer, compliant and future-ready social housing

Social housing organisations face increasing operational and regulatory demands. ECA provides the expertise, support and practical tools to help teams deliver with confidence.

Tailored, consultative support

Specialist advice tailored to the needs of housing providers and contractors, helping build competence, strengthen compliance and improve performance.

Technical

Safety, Health & Environment

Legal & Business

Employee Relations

Education & Skills

Practical digital business tools

Standardise safety, manage workforce competence, and stay audit-ready across every project.

eRAMS

Produce professional risk assessments for in-company or supply chain use.

eCOMS

Supports you in ensuring your workforce is competent, compliant, and ready to deploy.

Amplify your Voice

Ensure your organisation is represented and help shape industry discussions, government engagement and sector-wide initiatives affecting social housing, including:

- ✓ Net zero technologies
- ✓ Building Safety Act
- ✓ Electrical safety inspections and EICRs
- ✓ Fire safety and emergency lighting systems

Need support with DSEAR compliance?

ECA's Hazardous Area Working Group brings together Members and industry leaders including **CompEx**, **HSE**, **APEA**, **Certsure**, and **SELECT** to share best practice and promote safe, compliant working in hazardous environments.
